

Bona Create - Wooden Floor Colouration

For a fresh new look

Bona[®]

Wooden Floor Colouration

Express your style! With the unique and wide colouration system Bona Create, you can add a personal touch to your wooden floor.

Bona Create is a new formula bringing modern colours to wooden floors. Having a long open time, application is relaxed and the result is an even and beautiful colouration.

As part of the Bona System, Bona Create is developed at the forefront of sustainability with compatibility to Bona's finishes and oils. The cobalt-free low VOC formula guarantees healthy indoor air and safe working conditions.

Bona Create – a colouration system to trust for a perfect result.

- Modern & fresh colours
- Low VOC
- Beautiful and even colouration
- Safe result
- Relaxed application due to long open time
- Cobalt-free
- Overcoatable with both oil and finish

What's your Style in Wood?

When the time has come to renovate a floor, it's also an opportunity to transform it. Adding some colour to a wooden floor can give an entire new look and make a real difference to a room.

You can brighten up a room with a fresh, light shade. Plain old oak can be renewed with a tint of red, blue or green.

You might even want to match the floor with the rest of the room. Or you can get an attractive deep look with Create Pure. Next time when it's time to renovate, why not transform your wooden floor with a completely new colour!

Modern Colours for a Fresh Look

With Bona Create you can renew an old floor with a range of modern colours. There is no need to install a new floor. Colour can just be added to the existing one to create a fresh new look.

Wide range of colours

With Bona Create you can feel confident that you get a result that is trustworthy. A range of 9 different colours allows you to find the exact shade you want.

Applied on wooden floors Bona Create always result in a natural-looking colour, as though taken straight from nature's own palette.

Whether you want a darker tone for a heavier look, or a lighter tone to brighten up a room, Bona Create will be able to provide it. You will get the same great result on your floor regardless if you want a high gloss surface or if you want a matt oiled look. Having a long open time, Bona Create enables a relaxed application and the ability to work with larger surfaces. There

is no risk of overlap, and the result is an even colouration of the wood. Bona Create is a secure formula developed at the forefront of sustainability. The cobalt-free low VOC formula guarantees good indoor air and healthy working conditions.

Bona Create

- Part of a System You Can Trust

Bona Create is part of the Bona System - our total solution for the treatment of wooden floors. This means that the stain is compatible with all Bona's finishes and oils.

The final touch

Once Bona Create has been applied to the sanded floor, you need to apply a coating. Now it's time to decide whether you want a finished or oiled look.

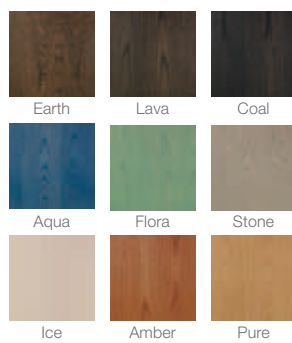

To provide a hard wearing surface that will preserve the wood, we recommend our popular waterborne finishes.

As an alternative to finishes, you may wish to apply oil on top of Bona Create. Here we recommend Bona's range of oils.

To keep the surface looking good, Bona has special maintenance products developed for both finished and oiled floors.

If this flap does not contain nine printed sheets of stained wooden floors, please contact Bona for more samples.

Bona[®]
